For 1552, I read that it says no harm or disparate treatment was found. Is there a work around in place today or this issue will just not cause harm?

The Corporate Advance & State Attorney Fee Matrix CCR to update the decision tool has been closed due to lack of funding.

Not sure how this will impact closing CIT 1552 but let's cross our fingers.

Hello All,

Per consensus with the project sponsor, Marc Hamblen, last week I requested that CCR #16548 be closed. There is another project (team) underway that is currently investigating what it would take to roll this initiative into their effort. If for some reason that does not happen, a new CCR will be opened and it will go through the Ops Discovery process again to secure funding up front.

Please let me know if you have any questions or if you need any additional information from me.

Thanks,

*Diane Young*
